The material for this issue was gathered by FRIENDS OF MALATESTA, Box 72, Bidwell Station, Buffalo, N.Y. 14222, USA. A list of literature available from FRIENDS can be obtained by writing to us. This issue was not planned so as to represent the opinions of FRIENDS, but so as to represent some of the opinions of some of our members and contacts, and to present some relatively little known historical material. Be critical, and let us know about your criticisms and other reactions to this issue. Steve Halbrook is a local contact for the North American Libertarian Alliance. N.A.L.A. publishes SUNBURST (P.O. Box 3684, Tucson, Arizona, 85720 USA).

The pamphlet, ANTIMASS, is available for 50c from Antimass, P.O. Box 7411, New Haven, Conn. 06519 USA.

Rawihokwats is an editor of AKWESASNE NOTES. "Sitting Bull in Canada" originally appeared in NOTES which is a monthly 48-page tabloid on North and South American Indian matters available on request from: Mohawk Nation, via Roosevelttown, N.Y. 13685 USA.

In a letter to FRIENDS, Rawihokwats says: "You might also wish to add some comment to the effect that, 'Many treaties were made in the name of the Queen by Great Britain which were assumed by Canada under the British North America Act. However, the Canadian Government has not honoured them, and the British Government simply refers inquiries and petitions back to Canada.' Since the issue will have good British readership, they might appreciate knowing that the honour of the Empire is not intact, although I suspect Anarchy people already know that."

## EDITORIAL

### Halfway to Abolishing Money

#### NEW SIZE NEW PRICE.

We've at last come to face what should have been obvious 2 years ago, we've taken on too big a job. The old ANARCHY was 'produced' by one person, Colin Ward. But he only edited it, all the production was done commercially.

When the old New Anarchy group took over, they doubled the size. At that time they still had the production done commercially (and ANARCHY still came out late). We first started doing the printing ourselves, then the typesetting, then the collating and binding. At this point in time all the work is done by the collective, from the first typed word to the last stuck stamp.

We are knackered, and ANARCHY is infrequent. Due to the decreased costs of doing it ourselves the financial position of the magazine is good, we have a cash balance of £450, we are owed a fortune, most of which we will never see, unfortunately, and our only debt is to our subscribers, were we to fold now we would owe £430, as near as I can work it out. We received just over £100 in donations last year, which has been vital, particularly in allowing us to keep a healthy paper stock and so not get hit too hard by the rising cost of paper. Our machine on which we used to do the typesetting is gone the way of all capitalist goods, so we've got an estimated expenditure of £150 on a new 2nd hand machine.

Reducing the price to 10p is a bit of a gamble because the new issue is not half the size of the old one, postal and paper costs have gone up enormously BUT we hope to produce more issues per year, improve the content, and sell more.

We are producing this issue and are not making a firm decision on this new size and price till we can tell what we think having seen it, and what you think. Do write and let us know as early as possible.

As we haven't yet decided to definitely continue at this size we haven't quoted a subscription rate, nor readjusted old subs, but we're thinking in terms of £1.50 for 10 issues and crediting old subs at 1½ copies for one. This increase in sub rates is due entirely to the increase in postal charges, having gone up twice this year they are going up again in the new year.

If you want to join the collective come to a Thursday night meeting at the address below.

Produced by the Anarchy Collective and published by Anarchy Magazine, 29 Grosvenor Avenue, London N5.  
Bound by Black Bindery, Box A, Rising Free, 197 King's Cross Road, London N1.

When we looked at the Soft Cops issue after we had finished it, we realised a need for a clear pointer as to what is our view and what is a point of view that we publish but don't necessarily agree with.

For instance, sandwiched amongst our various opinions on social workers etc. was an account by an actual probation officer - and it might be confusing to people that we agreed with him. Well we didn't necessarily you see!

So, not wanting to have to write the whole thing ourselves; or to confuse people as to what we think; and also to avoid footnotes so huge that they take over completely, we have adopted the idea of writing an editorial article that gives our views on the overall topics raised in each issue. This allows us to print articles that we don't agree with alongside of things we do, we hope without confusion.

It should also, over the years, (nice bit of long term planning here) give a fairly comprehensive manifesto on our ideas as Anarchists related to practical subjects such as housing, medicine etc.

The first of these dynamic articles begins on page one, and something you ought to know is that Mrs. Watson is a Councillor on Islington Borough Council and is also Chairman of the Housing Committee. There are lots of other things that could be said about her of course, but as she keeps cropping up in this issue you should get the idea...
